ABOUT ME

As a full-stack developer, I bring a wealth of expertise in technologies like MongoDB, MySQL, JavaScript, TypeScript, NodeJS, ExpressJS, ReactJS, NextJS, and Spring Boot. My journey began as a frontend developer, mastering tools like Bootstrap, TailwindCSS, SCSS/SASS, and WordPress. This diverse skill set enables me to deliver comprehensive solutions, making me a valuable contributor to any development project.

SKILLS

Nodejs

Expressjs

Reactjs

Nextjs

JavaScript

TypeScript

Java

Spring Boot

EXPERIENCE

July 2023 - Present

FULL STACK DEVELOPER
Freeelancer

As a Full Stack Developer, I've crafted bespoke websites for businesses, showcasing their products effectively. I've also constructed comprehensive e-commerce platforms, facilitating seamless online transactions. My work encompasses the entire development cycle, ensuring robust and user-friendly web solutions.

Jan 2019 - June 2023

FRONTEND DEVELOPER
Freelancer

I have engineered e-commerce and corporate web solutions tailored to client needs. Additionally, I have revitalized landing pages of pre-existing websites, enhancing their interactivity for an improved user experience. Furthermore, I have adeptly converted FIGMA designs into dynamic React frontend pages.

2016-2020

OWNER
Bajaj Creations

I initiated a venture selling sports goods, clothing accessories, and other items on Amazon's US, UK, and European marketplaces. However, the COVID-19 pandemic introduced significant shipping challenges due to restricted airline operations.

TailwindCSS

Bootstrap

SASS / SCSS

DSA

System design (SOLID)

Product Management

Agile Methodology (JIRA)

Magento CMS

Wordpress

Consequently, I made the strategic decision to discontinue this business and transition into freelancing.

Jul 2015 – Mar 2016

SECURITY EXECUTIVE
Vistara Airlines
I was assigned to the IGIA T3 Terminal where my primary responsibilities encompassed ensuring the security of both aircraft and cargo.
